

# The simple solution to **SUPPLEMENTING** your livestock

## WHAT IS BEACHPORT LIQUID MINERALS

Beachport Liquid Minerals livestock supplements are a unique 3-in-1 proven combination of amino acids, electrolytes and trace elements, to aid in feed conversion of both dry and green feed. The product is designed for ease of use and simplicity through water medication.

## BLACKCAP

To improve the health & performance of your sheep

**DOSE RATE CALCULATOR**  
available on the website to assist with  
dose rates and application guidelines.

Black Cap has been formulated for sheep and is the same as BLM Blue Cap but excludes the Selenium component. It plays a role in the correction of essential mineral deficiencies along with the ability to make nutrients more absorbable and have a better retention rate aiding in improving the health & performance of your livestock.

- ✓ Includes essential trace elements required for optimal wool production
- ✓ Feed conversion of both dry & green feed
- ✓ Supports rumen development in young animals
- ✓ Improves wool cut & tensile strength
- ✓ Assist in improving fertility & survival rates
- ✓ Aids in tightening up lambing periods with a more even drop
- ✓ High amino acid content (the building block of protein)

### APPLICATION

Dispense into water troughs using the Beachport Dispenser (or pour directly into water tanks) every 6 weeks or at key times of stress; Prejoining, Pre-Lambing, Rams prior to mating and to improve feed conversion to maximise production.
