(Starter Packs also available in 200L & 1000L)

The **Green Cap** product is a natural formulation aimed at calming livestock to improve ways of coping with stress and utilise the numerous natural occurring effects of electrolytes and amino acids in cattle and sheep. Green Cap is beneficial for use during high stress periods such as weaning and the unfamiliar surrounds of yarding and transportation in both short haul and long haul trips.

- ✓ One dose application, prior to trucking.
- ✓ Natural formulation aids in lowering stress levels. A calmer animal travels better.
- ✓ Decrease shrinkage during transportation.
- ✓ Animals don't 'empty out' on the truck as much.
- ✓ May help reduce dark cutters and assists with improving MLA grading.
- ✓ Animals remain hydrated and retain moisture.
- ✓ Feed conversion on both dry and green feed.
- ✓ Nil withholding.

APPLICATION

Dispense into water trough using the Beachport Dispenser. Ideal time is between 1 week to 3 days prior to trucking but can be used NO LESS than 24hrs prior to trucking.
