1000L Drum	\$0.98 p/head	\$0.20 p/head

Prices are correct at time of printing & inc GST
(Starter Packs also available in 200L & 1000L)

Green Cap is aimed at naturally calming livestock to improve ways of coping with stress during weaning, introduction and exit from feedlots, unfamiliar surrounds of yarding and transportation in both shorthaul and longhaul trips.

- ✓ One dose application
- ✓ Animals cope better with separation and are easier to handle when stress levels are lowered.
- ✓ Helps reduce weaning time and stimulates the rumen
- ✓ Decrease shrinkage during transportation
- ✓ May help reduce dark cutters & assist with improving MSA grading
- ✓ High amino acid content (the building block of protein)

APPLICATION

Dispense into water troughs using the Beachport Dispenser upon entry to yards or paddock when weaning. For trucking, the ideal time for dosage is 1 week to 3 days prior to trucking. You can also use Green Cap when there is a major change in feed source.

DOSE RATES

Cattle	Per head, lasts 6 weeks	
	100 - 200 kgs	20mls
